Sow double Marigolds in *February* or *March*, in the increase of the Moon.

Shear Sheep at the Increase of the Moon.

The best time to Geld Cattel the Moon being in Aries, Sagittarius, or Capricorn.

Of Blood letting, and some other Physical Observations.

In youth let Blood from the change to the first quarter : In middle age, from the first quarter to the full : in elder years from the full to the last quarter : In old age, from the last quarter to the change. But know, that under the age of 14. and above the age of 56. it is not good to bleed at all.

Again, in the Canicular, or Dog-days, it is very hurtful to take any Physick at all, unless there be great need : and indeed necessity hath no law : Wherefore in such a case, the disease being desperate, the Cure must be adventured.

Take a Purgation when the Moon is in Trine, or Sextile aspect with Venus, decreasing in any of these three Signs Cancer, Scorpio, or Pisces, and it will be sure to work the better, because when a moist Planet, in a moist Sign hath such an aspect, the humors in the body are then stirred up and down, and so the better purged out; wherefore in this case, it cannot be amiss to prepare humors by something

something that is laxative : and let this be done whilst the Moon is either in Gemini, Libra, or Aquarius.

Take a Vomit, that it may work thoroughly, when the Moon is in Aries, Taurus or Capricorn, & know that the aspects of the Moon with Saturn, or Mars, or the Moon in Leo, ought to be eschewed in the taking of Medicines

Finally, if necessity urge no haste, these observations are expedient : for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
